CONTENTS: BOOKS BEING EXCESSED. $790. #80550141810002.

APL An Interactive Approach. 1984.
MACSYMA. 1985.
Arithmetic Operations in Digital Computers. 1955.
Reference Data for Radio Engineers. 1956.
Electronic Databook. 1983. C.1.
The Science of Sound. 1982. C.2.
Proceedings of the 19th IECEC '84. V.1.
Digital Signal Processing: A System Design Approach. 1988.
Mathematica. 1988.
Advanced Calculus for Applications. 1976.
High Temperature Alloys: Theory and Design. 1984.
Computer Methods for Circuit Analysis and Design. 1983.
Optimal Control Theory. An Introduction. 1970.
Communications Circuits: Analysis and Design. 1978.
Linear System Theory and Design. 1984.
Fundamentals of Automatic Control. 1970.
Chemical Reaction Engineering. 1972.
Compact Heat Exchangers. 1964.
Rocket Propulsion Elements. 1956.
LIA Guide for the Selection of Laser Eye Protection. 2000.
Laser Safety Guide. 2000.
High-Temperature Metallic Corrosion of Sulfur and its Compounds. 1970, C.1.
Operational Circuit Analysis. 1946.
Gas Tables. 1963. C.20.
Principles of Experimental Design for the Life Sciences. 1996.
Aircraft and Missile Propulsion. 1958.
Total Quality Management. 1992. C.26.
The Team Handbook. 1992.
Non-Newtonian Flow and Heat Transfer. 1967. C.1.
Space Industrialization. V.1 and V.2. 1982.
Getting the Picture. 1986. C.1.
CATV Circuit Engineering. 1975. C.1.
Mastering Television Technology, 1988. C.1.
Answers to Television Technology. 1992. C.1.
Television Technology: Fundamentals and Future Prospects. 1988. C.1.
Cable Television. 1980. C.2.
