

## Recalls Results by VIN - Vehicle Identification Number

[Print](#) **VIN:** 2G1WA5EK6A1125985**Year:** 2010 **Make:** Chevrolet **Model:** Impala**Number of Open Recalls:** 1**NHTSA Recall Number:** [16V507](#)**Recall Date:** June 29, 2016**Manufacturer Recall Number:** 2036110**SUMMARY:**

General Motors has decided that a defect, which relates to motor vehicle safety, exists in certain 2009 – 2010 Chevrolet Impala vehicles. The front passenger seat frame in these vehicles may rub against and damage the wires of the passenger presence sensor (PPS) module, which could cause the PPS system to fail to recognize that the passenger seat is occupied and improperly suppress the front passenger airbag. In addition, the cluster gauges and driver information center (DIC) alerts may intermittently turn off or not function properly. In rare circumstances, the damage to the PPS module could cause the airbag fuse to short, resulting in the loss of all airbags and seat belt pretensioners.

**SAFETY RISK:**

Damage and chafing to the wires of the PPS module could prevent the front passenger airbag from deploying in the event of a crash, which could increase the risk of injury to front passengers. If the wire damage to the PPS module is severe enough to short the airbag fuse, it could cause the loss of power to the sensing diagnostic module, which would result in the loss of all airbags and seat belt pretensioners and could increase the risk of injury to vehicle occupants in the event of a crash.

**REMEDY:**

All vehicles will have double wrap class F anti-abrasion tape with 50% overlap added to the wires in the PPS wire harness. For vehicles with wires that are chafed, dealers will replace the wire if necessary and add anti-abrasion tape to protect it from further wear.

**RECALL STATUS:** Recall **INCOMPLETE****MANUFACTURER NOTES:**

Visit manufacturer website at <https://my.gm.com/recalls> for more information.

If the manufacturer has failed or is unable to remedy this safety recall for your vehicle in a timely manner, please contact the NHTSA Vehicle Safety Hotline at: 1-888-327-4236 or TTY: 1-800-424-9153 or file an [online complaint with NHTSA](#).

### Additional Safety Information

Besides the VIN search tool you just used, NHTSA offers additional safety information based on a vehicle's make, model, and model year and not tied to any particular VIN. A search by vehicle make, model, and model year gives you access to information about technical service bulletins, NHTSA investigations, and owner complaints, as well as safety recalls on aftermarket equipment that is often not linked to a particular VIN or even to your vehicle's manufacturer.

To search NHTSA's safety information based on your vehicle's make, model, and model year, please go to the [Safety Issues section](#) and follow the instructions there.

Recall information for this manufacturer is only available going back to August 20, 1999. If your vehicle was manufactured before this date, please contact the manufacturer for possible additional recall information.
