

CONTENTS: BOOKS BEING EXCESSED. \$1286. #80550153230042S.

Electromagnetic Energy Transmission and Radiation. 1960. C.1.
Physics and Chemistry of III-V Compound Semiconductor Interfaces. 1985. C.1.
Deep Centers in Semiconductors. 1986. C.2.
Magnetic Oxides. 1975. V.1. C.1. and V.2. C.1.
Electro-Magnetic Theory. 1971. V.1. C.1. and V.2. C.1. and V.3. C.1.
Quantum Theory of Scattering. 1962.
Nuclear Reactor Theory. 1966. C.1.
Plasma Physics. 1975. C.1.
Electric Conduction in Semiconductors and Metals. 1958. C.1.
Amorphous and Liquid Semiconductors. 1983. Pt.1. C.1.
The Ceaseless Wind. 1976. C.1.
The Physics and Applications of Amorphous Semiconductors. 1988. C.1.
Particles and Fields. 1968. C.1.
Introduction to Electromagnetic Fields and Waves. 1963. C.1.
Liquid Semiconductors. 1969. C.1.
Optical and Laser Remote Sensing. 1983. C.1.
Applications of Ion Beams to Materials 1975. C.1.
Thunderstorms, Tornadoes, and building Damage. 1975. C.1.
Anisotropy Effects in Superconductors. 1977. C.1.
Physics of High Temperature Plasmas. 1979. C.1.
Neutron Physics. 1962. C.1.
Physical Electronics. 1967. C.1.
Handbook on Plasma Instabilities. 1982. V.3. C.1.
Particle Accelerator Design: Computer Programs. 1974. C.1.
Novel Sources of Coherent Radiation. 1978. C.1.
An Introduction to Semiconductors. 1957. C.2.
Electrons in Gases. 1948. C.1.
The Acceleration of Particles to High Energies. 1949. C.1.
The Microtron. 1978. C.1.
Physics through the 1990s. 1986. C.1.
Theoretical Electromagnetism. 1962. C.1.
Physics of High Temperature Plasmas. 1966. C.1.
Bonds and Bands in Semiconductors. 1973. C.1.

Lot 30
