

Reengineering Handbook. 1991. C.1.
Engineering Psychology: Current Perspectives in Research. 1971.
Structured Analysis and system Specification 1979. C.1.
Self-Assembled Nanostructures. 2003. C.1.
Essential Systems Analysis. 1984. C.1.
Low-Dimensional Systems: theory, Preparation, and Some Applications. 2003. C.1.
Guide to Information Sources in Engineering. 2000. C.2.
Manual of Style for Technical Publications. 1998. C.2.
Technology Exchange in the Information Age. 1998. C.1.
Search Theory and Applications. 1979. C.1.
The Management of Engineering. 1996. C.1.
Engineering Economic and Cost Analysis. 1988. C.1.
Boundary Elements XXIII. 2001. C.1.
Engineering Statistics. 1959. C.1.
Optimization and Probability in Systems Engineering. 1970.
Reliability; Management, Methods, and Mathematics. C.1.
Principles of Engineering Economy. 1970.
Unbounding the Future. 1991. C.1.
The Craft of Scientific Writing. 1996. C.1.
Limited by Design. 1998. C.1.
Management of Research and Development Organizations. 1990. C.1.
Mathematical Methods in Operations Research. C.2.
Performance Instrumentation and visualization 1990. C.1.
Engineering of Creativity. 2000. C.1.
Logistics Engineering and Management. C.1.
Systems Engineering Mathematics. C.1.
Identification of Systems. C.1.
Controlling the Future. 1991. C.1.
So you want to be a Consultant. 1984. C.1.
Writing as an Engineer. 1997.
The Boundary Element Method for Engineers. 1978. C.1.
Basic Numerical Mathematics. 1983. C.2.
Expert Systems. 1986. C.1.
Creating Technical Manuals. 1984. C.1.
The Biomechanical Basis of Ergonomics. C.1.

Validating Digital Systems in Avionics and Flight Control.
Object Oriented Design.
Product Design and Development.
Accounting: The Language of Business.
Strategies for Real-Time System Specification.
The Capability Maturity Model.
Legal Aspects of Managing Technology.
ISO 9001.
