REPORT NUMBER: 147NEZ-5261-0005

The vault door retrofits into a standard 80" x 30" opening and is designed for easy installation. The new adjustable door frame slides together to fit a-swing door. Because of the internal release, the door will still open by swinging in even if debris has blocked the door. The Safety Lock Release will allow exiting the vault room from inside. With an electronic lock, you are also able to close and lock the door from the inside. NOTE; WHOEVER GETS

THIS SAFE DOOR, THEY ARE RESPONSIBLE TO PAY THE COST TO UNINSTALL DOOR FROM ROOM. QUOTE WAS GIVN 450.00 TO REMOVE FROM SERCURITY SOURCE-ALBUQUERQUE.
