

# Excess Justification Report

## For Excess Lot

### FY16-015

Item #	Part #	Serial #	Description	Cond	Qty	Remarks
0001	034973	DEA034973	Oscilloscope , Cond 4	4	1	Hitachi 4-Channel 150MHz Analog Scope is 18 years old and in working condition. Calibration was due 7/24/15. No power cord included.
0002	034974	DEA034974 (40-33109)	Transistor Tester, 520B, Cond 4	4	1	BK Precision 520B Transistor Tester determines good or bad transistors, FET's, SCR's, or diodes. This unit is 27 years old and in working condition. Not calibrated since purchased.
0003	1912	DEA130023 (3035045)	Multi-Counter, Cond 4	4	1	Fluke Multi-counter 5Mhz to 520Mhz CB/HAM Radio frequency counter is 28 years old and in working condition. Has not been calibrated since July 2014. No power cord.
0004	194099/V-1150	DEA194099 (0021843)	Oscilloscope, Cond 4	4	1	Hitachi 4-Channel 150MHz Analog Scope is 27 years old and in working condition. Calibration due 7/8/15. No power cord.
0005	194099/V-1150	DEA194061 (9111754)	Oscilloscope , Cond 4	4	1	Hitachi 4-Channel 150MHz Analog Scope is 26 years old and in working condition. Has not been calibrated since 8/5/15. No power cord.
0006	37	DEA130291 (4030361)	Multimeter, Cond 4	4	1	Fluke 37 Multimeter is 30 years old and in working condition. Calibration due 3/11/16. No power cord.
0007	444	DEA244781 (31552)	Micro-Ohmmeter, Cond 4	4	1	Simpson micro-ohmmeter is for testing conductive coatings, high power fuses, and antenna grounding systems. This unit is 22 years old and in working condition. Calibration due 4/7/16. Operators manual with unit. No power cord.
0008	8012A/AD	DEA244815 (5975)	Fluke Ohmmeter, Cond 4	4	1	The Fluke 8012A Digital Ohmmeter is a portable 3.5 digit DMM. Measurement functions include: DC volts, true-rms AC volts, DC amps, true-rms AC amps, ohms, conductance, and diode test. This unit is 22 years old and in working condition. Calibration due 6/11/16. No power cord.
0009	8050A	DEA149913	Digital Multimeter, Cond 4	4	1	Fluke 8050A Multimeter is 27 years old and in working condition. Has not been calibrated since 11/13/15. No power cord.
0010	8060A	DEA194098 (4980265)	True Rms Multimeter, Cond 4	4	1	Fluke 8060A Multimeter is 26 years old and in working condition. Has not been calibrated since 8/6/15. Battery operated.
0011	CR70	DEA202150 (6059236M)	Universal Analyzer, Cond 4	4	1	Sencore CR70 Universal Analyzer is designed to test and restore any type of CRT (Cathode Ray Tube). This unit is 18 years old and in working condition. Not calibrated since purchased on 5/15/97.
0012	HP5315A	DEA244649 (1948A03508)	Frequency Counter, Cond 4	4	1	Frequency counter is 20 years old and in working condition. The 5315A Universal Counter measures signals over 0.1Hz to 100MHz range. Calibration due 5/6/16. No power cord.
0013	HP8111A	DEA194273 (2849 G 06671)	Pulse/Function Gen #2, Cond 4	4	1	Hewlett Packard Pulse function generator is 26 years old and in working condition. The 8111A pulse/function generator combines pulse generator and function generator capabilities in a single, compact unit. Triggered operation for all waveforms, and the ability to define rectangular waveforms in terms of pulse width or duty cycle. Calibration due 6/9/16. No power cord.
0014	V-1150	DEA244626 (3012621)	Oscilloscope, Cond 4	4	1	Hitachi 4-Channel 150MHz Analog Scope is 22 years old and in working condition. Calibration due 5/6/16. No power cord.

**FY16-015**

Item #	Part #	Serial #	Description	Cond	Qty	Remarks
0015	VA62A	DEA202142 (6058801M)	Universal Video Analyzer, Cond 4	4	1	Sencore video analyzer is much faster than signal tracing, this is a signal substitution unit for TV and VCR servicing. Generates a variety of signals that can be injected into the stages of the unit under test to verify if the stage is working. This unit is 18 years old and in working condition. Unit has not been calibrated since purchased.
0016	176437	DEA176437	Capacitor ESR Leakage & Inductor Ringer Analyzer Z Meter 2, Cond 4	4	1	Sencore Model LC75 checks capacitors, leakage tester for testing switches, PC boards, connectors and contacts. Unit is 27 years old and in working condition. Unit has not been calibrated since purchased.
0017	SCR250	DEA202449 (6064418M)	Scr & Triac Test Accessory, Test Fixture, Cond 4	4	1	The SCR250 is designed to mount on top of LC103 ReZolver <sup>®</sup> Capacitor & Inductor Analyzer to test components for turn-on and turn-off capability and leakage. This unit is 18 years old and in working condition. Not calibrated.
0018	DF Test Box	DEAV007	DF Test Box, Cond 4	4	1	DF Test Box is 29 years old and in working condition. Unit not calibrated since purchased.
0019	034723	DEA034723	Volt/Ohm Microammeter	4	1	Simpson Volt-Ohm Microammeter, Model 269 Series 3 is used for measuring electrical characteristics of circuits and circuit components. It indicates quantity measurements for DC and AC voltages, Direct Currents, Resistances, Decibels, and A.F output voltages. This unit is 27 years old and in working condition, battery operated. Unit not calibrated since purchased.
0020	ELS Programer	N/A	Arnav ELS Programmer, ELT Tester, Cond 4	4	1	Arnav ELS Programmer used for testing purposes only. Unit is over 20 years old and in working condition. Unit not calibrated.
0021	453-0130	N/A	ELS-10 Programmer, ELT Tester, Cond 4	4	1	Artex ELS-10 Programmer used for testing purposes only. This unit is over 20 years old and in working condition. Unit not calibrated.
