

FLEET SERVICE CRAFT DATA SHEET

Craft Name: GOSHAWK
Hull Number: PF-69 (mfg hull # 42PR856)
Craft Type: ex-Navy 40PRMK4 42' Patrol Boat

Construction: Aluminum
Built: 1985, by Monark Boat Company, Monticello, AR
Classification: None.

Particulars:

Length: 42 ft.
Breadth: 14 ft. 8 in. ft.
Depth: 6 ft.
Draft: 3 ft. 6 in.
Weight: 16 LT

Date Acquired: 6/22/99
Acquisition Value: \$365,000

Propulsion: Twin Screw
Main Engine(s): Detroit Diesel 8V71T, 462 HP each. Hours unknown since last overhaul.
Reduction Gear: TwinDisc
Exhaust: Wet, thru transom
Auxiliaries: None

Navigation Gear: All navigation gear has been stripped from the vessel.

Capacities:

Diesel Fuel: 670 Gal.
SW Ballast: 0 Gal.
Potable Water: 0 Gal.

Last drydocking: 2006

Current Status:

The boat was laid up August 2012. The boat was in regular operations until then. Both main engines were in running condition, however, when last run in August 2014, both engines were showing black smoke from the exhaust. The engines need work; they need to have their injectors and turbochargers replaced. The intakes need to be cleaned. And the alternators were frozen on the last start up, causing the belts to snap.

Otherwise the boat is in fair condition. The hull and deck are good shape, no leaks or major dents. Doors, hatches, scuttles and windows are in all good condition. Running gear (shafts, seals, bearings, rudders and steering) also in operational condition since last use.
