

GSA SALE A1QSCI-15-144, LOT 502

TRAVEL TRAILER, 1 EACH:

Known Issues include:

All 4 tires are flat and sinking into the ground

The stabilizer jacks are also a bit sunk into the ground

There is sun damage on the south side, some of the plastic is getting pretty brittle and separating

Infested with flies and dead bugs

Some rust in the water heater compartment

There is a vented panel door so probably moisture has gotten inside

Unk if water heater works

Trailer is not level

Possibly because the trailer is not level, there is some separation of the outer hull at the front end of the trailer.

No battery

Rodent nest in the empty battery compartment

No propane

Propane tanks are empty and appear to never have been hooked up

Very dirty

INSPECTION IS HIGHLY ENCOURAGED

FLATBED TOW ONLY – BUYER MUST LOAD
