

A1QSCI-16-058, LOT 505

**STORAGE TANK, HELIUM:**

MFR FIBA TECHNOLOGIES

MDL ISO HELIUM TANK 820

**TANK IS EMPTY – Current weight is 23,000 lbs** *(23,600 lbs when full)*

Tank has 8 steel tubes in a manifold configuration.

Each tube can hold 8,000 SCF of Helium

The tanks when full would be up to 3,000 PSI

The 8 tubes are protected in a steel shipping crate: **20 ft long x 8 ft wide x 5 ft high**

Condition of tank is unknown.

**Trailer:**

Mfr UNK

Mdl: CC-223

Year: 1999

VIN: 1NNCO2324YM323897

The chassis meets all DOT, AAR, ANSI, TOFC, FMVSS, ISO, SAE, AND TTMA requirements and specs to operate in the U.S.

Chassis wt: 6,800 lbs

23.5 ft long x 8 ft wide

The brakes utilize ABS System (repairs may be needed)

Purchaser will need to hire and coordinate crane services to load tank if needed. **(no assistance available)**
