Re: Red River Army Depot Western Excess Parcel, New Boston, Texas; Request for Federal Land Transfer of Highway 8 Right of Way

Dear Mr. Demmer:

This letter is in response to your June 1, 2015 letter to Mr. Stephen Lund. As was previously stated, TxDOT cannot at this time commit to specific access points along SH 8 in the area in question. However, TxDOT commits to making a good faith effort to review and process any and all future driveway access requests according to our current Access Management guidelines and policies.

In regards to any existing driveways in this area, TxDOT will accept responsibility to identify and provide each grantee the proper real estate instruments for the access points and or easements that have been granted thus far that are showing as encroachments of government property.

Feel free to call or e-mail if you have any questions.

Sincerely,

Jason Dupree, P.E.
Atlanta District Director of Operations
